A

**Absorption, dietary cholesterol:** And plasma lipoprotein responsiveness 2415
**Absorptive enterocytes:** Electron micrographs of 1543
**ACAT:** *see* Acyl-CoA:cholesterol acyltransferase
**α-N-Acetylgalactosaminidase deficiency:** Failure to degrade blood group A glycolipid in 1768
**Actin ligands:** Hydroxy fatty acids 1476
**Activated lymphocytes:** Stimulation of PLD in, by DHA 873
**Acyl-CoA:** Partitioning between oxidation and esterification 1889
**Acyl-coenzyme A:cholesterol acyltransferase-1**
Catalytic role in various human tissues 1722
Lack of catalytic role in the human intestine 1722
Significance in various human tissues 1722
**Acylation stimulating protein:** Coordinated release of and triacylglycerol clearance by adipose tissue in the postprandial period 884
**Adenovirus:** Overexpression of human PLTP mediated by in mice 1248
**Adipocyte cell line, 3T3-L1:** Variant that does not undergo differentiation 2048
**Adipocyte differentiation:** Effect of polyunsaturated fatty acids on 1327
**Adipocyte genes:** Expressed in lipid-laden pulmonary fibroblasts 2483
**Adipocytes**
3T3-L1, inhibition of lipogenic gene expression by arachidonic acid 1327
Antilipolytic action of insulin in 957
Generation of ASP in, postprandially 884
**Adipogenesis:** And receptor regulatory protein 1152
**Adipose tissue**
ASP release in, in postprandial period 884
Expression of HSL in, relation to lipolysis 1688
Human, UCP-1 gene expression in 834
*ob* mRNA expression in humans 724
Role of in regulation of plasma LPL concentrations 2387
**African green monkeys:** Large HDL in 2076
**Age:** Influence on preβ-1 HDL in normolipidemic plasma 670
**AIDS** 1907
Murine, effects of fish oil on cytokines and immune functions 1677
**Air/water interface:** Interaction of pulmonary surfactant protein A with DPPC and cholesterol 555
**Albumin, human serum:** Monoacylglycerol binding to 1033
**Alcohol ingestion:** VLDL-triglyceride production after 2319
**Alimentary lipemia** 1412
Compositional changes of large VLDL during 423
**Alkyl phospholipids:** Attached to ara-C, anticancer effects 162
**Alternative splicing:** Cloning of a novel isoform of the human SR-A gene by 531
**Alzheimer's disease** 1, 2373
And apoE 2443
**Amino terminal region:** Of apoA-I, binding of PLTP to 152
**Aminoacylcardiolipin:** Bacterial, analysis by FAB-MS 2286
**5-Aminosalicylic acid:** Conjugated with ursodeoxycholic acid 1641
**cAMP analogs:** Candidates for potential therapy in X-ALD patients 1091
**Amphipathic α helixes**
In apoB-100 85
Programs for displaying 85
**Amphipathic motifs:** Conservation of 85
**Amphipathic β strands:** In apoB-100 85
**Anabolic steroids:** Effects of on plasma HDL cholesterol and hepatic lipase activity 1520
**Androgens:** And hepatic lipase activity 1520
**Antibody, polyclonal:** Against homocysteine thiolactone-modified LDL 925
**Antioxidant**
LDL content of, impact on LDL oxidation by endothelial cells in culture 999
Lipophilic, determination of 2099
**Antioxidant properties:** Of dietary *trans*- and *cis*-18:1 fatty acids in hamsters 1972
**Aortic cholesterol:** Increased concentration in rabbits, by dietary oxysterols 1995
**Apolipoprotein [a]**
cDNA sequences 1319
Glycosylation and intracellular processing 1629
Immature forms, association with apoB-100 in vitro 1629
Null allele, molecular basis of 1319
**Apolipoprotein A-I**
And centripetal cholesterol flux 2143
Anti-atherogenic role 313
Binding of PLTP to 152
Cellular cholesterol efflux determined by degree of lipidation of 1918
Deficiency, in human apoB transgenic mice 313
Disturbed transfer of phospholipid to, in Tangier disease patients 987
Gene expression in hepatoma cells, regulation by human S mu binding protein-2 255
In large LpAI, kinetic studies in African green monkeys 2076
Interaction with PUFA 2423
Lipoproteins containing, secretion by chick kidney 731
Postprandial, decreased in normolipidemic smoking men 1493
Reaction with regions of the plasma membrane 1601
Reduction of phosphatidylcholine hydroperoxide by 1133
Transport in the apoA-I$^{-/-}$ mouse 1483
**Apolipoprotein A-II**
Binding of PLTP to 152
Role in atherosclerosis 457
**Apolipoprotein A-IV:** Genetic variation of gene locus, modulation of fat clearance by 2493
**Apolipoprotein B**
Cytokine regulation of 103
Decrease in production by lovastatin treatment in hyperlipidemia 913
Deficiency, chylomicron-sized lipid particles in 1543
Effect of cytokines on synthesis in HepG2 cells 103
Lipoproteins containing, model for core lipidation of 1543
Lipoproteins containing, production limited by MTP-mediated lipid transfer 1448
Lipoproteins containing, secretion by chick kidney 731
Metabolism in hepatic lipase-deficient mice 1661
Metabolism in hypertriglyceridemic diabetic patients, effect of a fish oil diet 388
Secretion 1220
Secretion by CaCo-2 cells, inhibition by 13-HODE 1254
Secretion in HepG2 cells, effect of glucose 2277

Secretion, inhibition of 1448
Signal peptide, determinant of hepatic secretion of VLDL apoB in obese men 1752
Study of, using genetically modified mice 703
Transgenic mice, with apoA-I deficiency 313
Translocational pausing, regulation by membrane lipid composition 1287
VLDL, hepatic secretion in obese men 1752
**Apolipoprotein B-48**
Lipoproteins containing, modulation of clearance by LPL activity 322
Marker of postprandial intestinal lipoproteins 1964
**Apolipoprotein B-100**
Association with apo[a] in vitro 1629
Characterization and quantitation of capillary electrophoresis 205
Kinetics in VLDL and IDL 380
Structure in nine species of vertebrates 85
**Apolipoprotein C-II:** Binding to lipid emulsions 143
**Apolipoprotein compostion:** Of chylomicron remnants and VLDL, fasting and postprandial 1412
**Apolipoprotein E**
Alleles, and cerebrospinal fluid apolipoproteins 2443
Association with $\alpha_2$-macroglobulin in human plasma 2373
Deficiency in mice, immune responses to *Listeria monocytogenes* in vivo 1740
Deficiency in mice, selective uptake of cholesteryl esters from remnant lipoproteins in 2436
Endogenous expression by macrophage, modulation of $HDL_3$ binding 293
Genotypes, determinants of hepatic secretion of VLDL apoB in obese men 1752
Human, associated with lipoprotein secreted by transfected McA RH7777 cells 1372
Leiden, LDL receptor-binding activity of 1173
Postprandial, decreased in normolipidemic smoking men 1493
Role in LPL-mediated lipolysis 1852
Synthetic peptide, effect of, on rate of lyase gene transcription 2406
**Apolipoprotein E knockout mice** 2339
Radical-induced lipoprotein and plasma lipid oxidation in 354
**Apolipoprotein E2**
$Arg^{136}$→Cys mutation in receptor binding domain of apoE 658
LDL receptor-binding activity of 1173
**Apolipoproteins**
Concentrations in HL-deficient mice 1661
HDL, analysis by capillary zone and capillary gel electrophoresis 218
In human cerebrospinal fluid 2443
Plasma, effect of PD 72953, PD 69405, and gemfibrozil 17
**Apoptosis:** Gangliosides and glycolipids in 1
**ara-C:** *see* 1-β-D-Arabinofuranosylcytosine
**1-β-D-Arabinofuranosylcytosine:** Orally active derivatives of, against mammary epithelial cells 162
**Arachidonic acid**
Inhibition by, of lipogenic gene expression in 3T3-L1 adipocytes 1327
Source of in human milk 1389
**$Arg^{136}$→Cys mutation:** In the receptor binding domain of apoE 658
**Arterial smooth muscle membranes:** Physical effects of cholesterol on 947
**ASP:** *see* Acylation stimulating protein
**Astrocytes:** Role in delivery of essential PUFA to the blood-brain barrier 1816
**Atherogenesis**
Cholesterol domains in SMC cell membranes during 947
Model for testing the role of tocopherol-mediated peroxidation in 354
**Atherogenicity:** Potential mechanism for 1263
**Atherosclerosis**
Diet-induced, in mice, effects of heterozygous LPL deficiency 1141
In apoA-I-deficient human apoB transgenic mice 313
In LDL receptor-deficient mice, effect of probucol on 1079
In the hamster, effects of dietary 8:0, 14:0, *cis*-18:1, and *trans*-18:1 fatty acids 1972
Risk of in pigeons 245
Role of human apoA-II in 457
**Atorvastatin:** Hypocholesterolemic action of 75

B

**Bacteria, gram-positive:** Analysis of α-D-glucopyranosyl-, D-alanyl, and L-lysylcardiolipin by FAS-MS 2286
**Bacterial lipid hydrolysis** 1896
**Baculovirus:** Utility of, for expression of recombinant phosphatidylcholine transfer protein 1862
**Bamet-R2:** *see cis*-Diammineplatinum(II)-chlorocholylglycinate
**Barrier disruption:** Regulation of SREBP, cholesterol synthesis, fatty acid synthesis, and ceramide synthesis 412
**Barrier homeostasis:** Glucosylceramide synthase activity during 277
**Basepair deletion:** In repeat 1 of the LDL receptor promoter 1021
**Batyl alcohol:** In phospholipids of *P. carinii* and in rat lung lipids 1907
**Bile acid depletion:** Effect on bile acid synthesis in hypercholesterolemic rabbits 1608
**Bile acid synthesis** 2477
Reduction in mice deficient in cholesterol 7α-hydroxylase 1833
Regulation in hypercholesterolemic rabbits 1608
Transcriptional activation of CYP7A 2192
**Bile acids**
Biliary, of the rabbit, an N-acyl glycyltaurine conjugate of DCA 2119
Cytostatic platinated, liver organotropism of 1792
**Bile salts**
Activation of phosphatidylcholine transfer activity of SCP2 1981
Modification of a phospholipid stabilized emulsion interface by 623
**Biliary bile acids:** Of the rabbit, an N-acyl glycyltaurine conjugate of DCA 2119
**Biliary cholesterol:** Solubilization and crystallization 594
**Biliary mucins:** And calcium salt precipitates, stimulation of cholesterol crystallization from model biles 1744
**Binding**
Of 12(S)-HETE by Lewis lung carcinoma cells 237
Of monooleoylglycerol at the dansylsarcosine site of albumin 1033
**Binding site:** Of LPL-specific monoclonal antibody 5D2 2350
**Biological activities:** Of synthetic sterols that affect meiosis 2005
**Blood group A glycolipid:** Degradation by normal and mutant human skin fibroblasts 1768
**Blood-brain barrier:** Synthesis of PUFA in 1816
**BMI:** *see* Body mass index
**BMS-192951:** Photoaffinity inhibitor of MTP 1448
**BMS-200150:** Inhibition of lipid transfer activity in CaCo-2 cells by 173
**Body fatness:** Influence on metabolism of HDL 544

**Body mass index:** And LIPC polymorphism, joint influence on postheparin plasma hepatic lipase activity 1127
**Brain**
Cholesterol homeostasis in 1594
Equine, stereochemical structures of plasmalogalactosylceramides from 1039
Murine, glycosphingolipid composition of tumors in 2218

C

**C17-20 lyase:** Gene transcription of, modulation by an apoE synthetic peptide 2406
**CaCo-2 cells**
Micellar cholesterol absorption and transport by 1197
Participation of MTP in lipoprotein assembly in 173
Role of caveolin in cholesterol trafficking 1938
Secretion of triacylglycerol-rich lipoproteins by, inhibition by 13-HODE 1254
Transport of cholesterol from the ER to the plasma membrane 333
**Cafestol:** Effect on cholesterol metabolism in human skin fibroblasts 901
**Calcitriol transmembrane signalling:** Regulation of rat muscle phospholipase D activity 197
**Calcium:** Induction of conformational change in LDL receptor by 402
**Candidate genes:** Exclusion of, in patients with sitosterolemia 1055
**Capillary electrophoresis:** Of high density lipoprotein apolipoproteins 218
**Carbohydrate structural studies:** Of recombinant LCAT 807
**Carbon recycling:** During extreme dietary linoleate deficiency 2271
**Carboxy-terminal region of lipoprotein lipase:** Necessary for processing the newly synthesized protein 821
**Carboxyl-terminal heparin-binding domain:** Of LPL 1310
**Carboxyl-terminus truncations**
Effect of on LDL binding activity of apoE 1173
Of PLTP 2021
**Carboxylalkylethers:** Lipoprotein regulating properties of 17
**Carcinoma cells:** Identification of subunits of 12(S)-HETE binding complex in 237
**Cardiolipin**
Accumulation of DHA in 1583
Bacterial, analysis by FAB-MS 2286
**β-Carotene:** Low and high responders to pharmacological doses of 2250
**Carotenoid content:** Of LDL, impact on LDL oxidation by cultured endothelial cells 999
**Catabolic rate, functional:** Of LDL, effect of lovastatin treatment 913
**Caveolae**
Regulation by cholesterol in MDCK cells 369
Sterols in 2459
**Caveolin**
Expression and subcellular localization in CaCo-2 cells 1938
In intestinal cells, role in cholesterol trafficking 1938
Regulation by cholesterol in MDCK cells 369
**CD36:** A high affinity receptor for native HDL, LDL, and VLDL 777
**Cell death:** Sphingolipid-mediated, in neurodegenerative diseases 1
**Cell oxidant production:** Enhancement by DHA in cardiolipin 1583
**Cell surface binding sites:** LDL receptor-independent 1263
**Cell surface proteoglycans** 1263
**Cell survival:** Lipid messengers and regulation of 1
**Cellular retinoic acid binding protein:** Increased expression during differentiation of epidermal keratinocytes 1421
**Cellular cholesterol:** Removal by pre-β-HDL 1918
**Cellular cholesterol efflux:** Effect of dietary modification of HDL phospholipid on 2065
**Cellular Cholesterol Ester Metabolism:** Special Report 2300
**Ceramide 1:** Role of in molecular organization of the stratum corneum lipids 186
**Ceramide molecular species:** Quantitative analysis of, by HPLC 2091
**Ceramide synthesis:** Regulation in keratinocytes and epidermis 412
**Ceramides:** From *Porphyromonas gingivalis*, relationship to adult periodontitis 2360
**Cerebrotendinous xanthomatosis:** Pre-mRNA splicing of the sterol 27-hydroxlase gene in a patient with 509
**CETP:** *see* Cholesteryl ester transfer protein
**Chain elongation:** And desaturation of *trans* isomers of linoleic and α-linolenic acids 2228
**CHD:** *see* Coronary heart disease
**Chemical synthesis:** Of sterols that affect meiosis 2005
**Chemotherapy:** Transport and biotransformation of Bamet-R2 1792
**Chick kidney:** Secretion of lipoproteins by 731
**Chimyl alcohol:** In phospholipids of *P. carinii* and in rat lung lipids 1907
**Chinese hamster ovary cells**
Mutant clone of, UT2 cells 2182
Peroxisomal-deficient, isoprenoid synthesis in 1781
**CHO-K1 cells:** Rapid efflux of biosynthetic desmosterol from 2459
**Cholestasis:** During pregnancy and lactation, in the rat 2237
**Cholesterol**
Biliary, solubilization and crystallization 594
Cellular, removal by pre-β-HDL 1918
Effect on lipoprotein lipase-mediated lipolysis in lipid emulsions 143
From oxidized LDL, lysosomal sequestration in macrophages 1349
In lipoproteins isolated by low temperature flotation procedures 1696
Interaction with pulmonary surfactant protein A at the air/water surface 555
Newly synthesized, release from plasma membrane 2459
Physical effects on arterial smooth muscle membranes 947
Regulation of caveolin and caveolae by, in MDCK cells 369
**Cholesterol 7α-hydroxylase**
Cholesterol homeostasis, in mice lacking 1833
Transcriptional activation of gene by nuclear hormone receptors 2192
**Cholesterol absorption:** And plasma lipoprotein responsiveness 2415
**Cholesterol biosynthesis**
Down-regulation by 7-dehydrocholesterol in SLOS cultured skin fibroblasts 647
Down-regulation in sitosterolemia 44
In humans, validation of methods for measurement of 1111
In patients with sitosterolemia, exclusion of genes involved in 1055
Inhibition after atorvastatin treatment 75
Requirement of peroxisomes for 1781
**Cholesterol catabolism:** To bile acids via the acidic pathway 2477
**Cholesterol crystallization:** From model biles 1744
**Cholesterol domains:** Immiscible, in bilayer width during atherogenesis 947

**Cholesterol efflux**
Differential rates from apical and basolateral membranes of MDCK cells 1231
In obese and lean subjects 544
**Cholesterol esterification**
Activity of LCAT, role of glutamic acid residues 154, 155, and 165 51
And *trans* unsaturated fatty acids 1438
**Cholesterol feeding:** Effect on bile acid synthesis in hypercholesterolemic rabbits 1608
**Cholesterol flux**
From endoplasmic reticulum to plasma membrane 2143
To the liver 2143
Whole body, in cholesterol 7α-hydroxylase +/+ and −/− mice fed a low cholesterol diet 1833
**Cholesterol homeostasis**
In human brain 1594
In mice lacking cholesterol 7α-hydrolase 1833
**Cholesterol metabolism**
Differences caused by corn oil or olive oil feeding, role of phytosterols 892
Hepatic, alteration due to soluble fiber 1455
In human skin fibroblasts, effect of cafestol on 901
In the rat, effect of pregnancy and lactation on 2237
**Cholesterol synthesis:** In CaCo-2 cells 333
**Cholesterol trafficking**
In intestinal cells 333
Role of caveolin in intestinal cells 1938
**Cholesterol transport:** Between cells and HDL subfractions 544
**Cholesterol-carrying particles:** In human gallbladder bile, quantitation of 594
**Cholesteryl ester storage disease:** LAL mutants in 1382
**Cholesteryl ester transfer protein** 1493
Deficiency in human plasma 442
Taq1B polymorphism, effect of on plasma lipoproteins in NIDDM 59
**Cholesteryl ester transfer protein gene:** Mutation in exon 9 442
**Cholesteryl esters**
Accumulation in macrophages 1008
Catalytic role of ACAT-1 in various human tissues 1722
Formation in various human tissues 1722
HDL, increase in selective uptake, mediated by LPL, by hepatic cells in culture 1335
HDL, selective uptake 1616
Selective uptake from remnant lipoproteins in apoE-deficient mice 2436
Transport in the apoA-I$^{-/-}$ mouse 1483
**Cholesteryl linoleate hydroperoxide and hydroxide:** LDL-derived, metabolism by macrophages 2394
**Cholesteryl transfer protein:** Amino acid polymorphism in, relationship of HDL and CHD with 1071
**Cholesterylphosphoserine:** Jurkat cells treated with, inhibition of cholesterol transport 1844
**Cholestyramine treatment:** In patients with phytosterolemia 1046
**Chromatography, fast phase liquid:** Lipoprotein fractionation by, using whole plasma 679
**Chromatography, high performance liquid**
Analysis of 9-oxononanoyl cholesterol by 1508
Measurement of plasma glycerol flux using 1106
Of 5,6-EET 1713
Quantitative analysis of ceramide molecular species by 2091
Quantitative analysis of phosphatidylcholine molecular species 344
**Chromatography, high pressure liquid:** Simultaneous determination of lipophilic antioxidants by 2099
**Chromosomal mapping:** Of human GGPP synthase gene 1731
**Chylomicron lipid particle assembly:** In apoB deficiency 1543
**Chylomicron remnants**
Critical role of HL in clearance and processing in mice 1661
Fasting and postprandial, chemical composition 1412
Fluorescently labeled, uptake by hepatocytes 845
Resistance to post-heparin lipolysis in apoE-deficient mice 1852
Uptake by mouse peritoneal macrophages 2339
Uptake, regulated by heparan sulfate proteoglycan in hepatocytes 845
**Chylomicron-like lipid emulsions:** Effect of sterol structure on clearance in rats and mice 302
**Chylomicrons:** β-carotene in 2250
**Clearance**
Of chylomicron-like lipid emulsions in rats and mice, effect of sterol structure on 302
Of maternal LDL and HDL by fetal tissues 518
**Cloning:** Of apo[a] genomic sequences 1319
**$^{13}CO_2$ breath test:** In mice, to assess metabolism of triglyceride-rich lipoprotein remnants 691
**Coenzyme Q:** Homologues, determination of, by high pressure liquid chromatography 2099
**Coffee lipid:** Cafestol, effect on cholesterol metabolism in human skin fibroblasts 901
**Colipase**
Lipase activity influenced by hydrophobic surface of 1759
Three dimensional structure of 1759
**Colonic inflammatory bowel diseases** 1641
**Conjugation:** Of ursodeoxycholic acid and 5-aminosalicylic acid 1641
**Core lipidation:** Of apoB-containing lipoproteins 1543
**Corn oil:** Dietary, effect of on cholesterol metabolism, differences compared to olive oil 892
**Coronary heart disease**
And hepatic lipase 1127
Relationship to an amino acid polymorphism in CETP 1071
**CRABP-II:** *see* Cellular retinoic acid binding protein
**CTX:** *see* Cerebrotendinous xanthomatosis
**CYP 27 gene:** Pre-mRNA splicing in a patient with CTX 509
**Cytochrome P450 2E1:** Hydroxylation of oleic acid by 1210
**Cytokine-induced endothelial activation:** Inhibition by unsaturated fatty acids 1062
**Cytokines**
Effects of fish oil on, in murine AIDS 1677
Inhibition of induction by cAMP 1091
Regulation of apoB by 103
Regulation of MTP mRNA expression by 1220
**Cytoprotective signaling:** In regulation of cell survival 1
**Cytoskeletal-association:** Of LDL receptor mRNA 1025
**Cytostatic platinated bile acids:** Liver organotropism of 1792
**Cytostatically active derivatives:** Of 1-β-D-arabinofuranosylcytosine 162
**Cytotoxic effect:** Of oxidized LDL on macrophages 482
**Cytotoxic signaling:** In regulation of cell survival 1

## D

**DCA:** *see* Deoxycholic acid
**7-Dehydrocholesterol:** Down-regulation of cholesterol biosynthesis by, in SLOS cultured skin fibroblasts 647
**7-Dehydrocholesterol $\Delta^7$-reductase:** Diminished activity in sitosterolemia 44
**Deoxycholic acid:** An N-acyl glycyltaurine conjugate in rabbit biliary bile acids 2119
**Desaturase activities:** In the human fetal liver 1825
**Desaturation:** And chain elongation of *trans* isomers of linoleic and α-linolenic acids 2228

**Desmosterol**
Biosynthetic, efflux from cells 2459
Distribution in the heads and tails of monkey sperm 1404
**Desorption of fatty acids:** From a phospholipid surface 467
**Deuterium incorporation:** For measurement of human cholesterol biosynthesis 1111
**Dexamethasone:** Modulation of RXRα mRNA level by 744
**DHA:** *see* Docosahexaenoic acid
**Diabetes**
ApoB metabolism in hypertriglyceridemia, effect of a fish oil diet 388
Non-insulin-dependent association between HDL-cholesterol and Taq1B CETP gene polymorphism 59
**Diacylglycerol:** Use of for the synthesis of triacylglycerol secreted by cultured rat hepatocytes 1889
***cis*-Diammineplatinum(II)-chlorocholylglycinate:** Transport and biotransformation by rat liver 1792
**Diet-induced obesity:** Circulating leptin level in 1655
**Dietary cholesterol**
Absorption, extreme interindividual variation 2415
And dietary fat, effect of on LDL particle and LDL and HDL cholesterol 1799
Increased hepatic sterol 27-hydroxylase by 1608
**Dietary fat**
And dietary cholesterol, effect of on LDL particle and LDL and HDL cholesterol 1799
Clearance of, modulation by genetic variation in apoA-IV gene locus 2493
Effect of on the depletion of n–3 fatty acids in the retina of the guinea pig 1274
Influence of type on plasma leptin levels in rats 1655
**Dietary fish oil:** Effect on serum lipids and VLDL kinetics in hypertriglyceridemic apoE*3-Leiden transgenic mice 1181
**Dietary modification:** Of HDL phospholipid, effect on cellular cholesterol efflux 2065
**Dietary oil phytosterol** Partially responsible for differences between corn oil and olive oil on cholesterol metabolism 892
**Dietary oxysterols**
Incorporation into triglyceride-rich lipoproteins 1995
Increase of atherogenicity of lipoproteins 1995
**Differentiation**
Of human epidermal keratinocytes, accompanied by increased expression of CRABP-II and cellular concentration of retinoic acids 1421
Preadipocytes, role of PPAR2 2048
**Dihomo-γ-linolenic acid:** Source of, in human milk 1389
**Dihydroceramide molecular species:** Quantitative analysis of, by HPLC 2091
**4,8-Dimethylnonanoyl-CoA:** Oxidation to 2,6-dimethylheptanoyl-CoA in mitochondria 66
**4,4-Dimethylsterols:** Synthetic, effect of on meiosis in mouse oocytes 2005
**Dipalmitoylphosphatidylcholine:** Interaction with pulmonary surfactant protein A at the air/water surface 555
**cDNA:**
For bovine VLDL receptor 2172
Of human GGPP synthase 1731
**Docosahexaenoic acid**
Accumulation in cardiolipin 1583
Distribution in the heads and tails of monkey sperm 1404
Increase in cell ROS by 1583
Metabolism in liver during mitochondria and peroxisome proliferation 583
Stimulation of a PLD and phosphatidate phosphohydrolase in ConA-activated lymphocytes 873
Supplementation, effect of on levels of DHA as NEFA 286
**Dolichol production:** Requirement of peroxisomes for 1781
**DPPC:** *see* Dipalmitoylphosphatidylcholine
**Drug response element transactivating factor** 255
**Dyslipidemia:** Associated with the LPL +/− genotype in mice 1141

## E

**Gingival tissue:** Lipids extracted from 2360
**Glucose:** Effect on apoB secretion in HepG2 cells 2277
**Glucose-6-phosphate dehydrogenase:** Gene, inhibition of expression by polyunsaturated fatty acids 1951
**Glucosylcardiolipin:** Bacterial, analysis by FAB-MS 2286
**Glucosylceramide synthase:** Activity in murine epidermis 277
**Glutamic acid:** Residues 154, 155, and 165 of LCAT, role of in cholesterol esterification and $PLA_2$ activities 51
**Glycerol flux:** HPLC method for measuring 1106
**Glycerol metabolism:** Pathways of 2319
**Glycerolipid metabolism:** In neutral lipid storage disease 31
**Glyceryl ethers:** In *Pneumocystis carinii* 1907
**Glycolipid, blood group A:** Degradation by normal and mutant human skin fibroblasts 1768
**Glycolipids:** And gangliosides in apoptosis 1
**Glycosphingolipids:** In tumor-infiltrating macrophages 2218

**Glycosylation:** Of apo[a], role in regulating its exit from the ER 1629
**Golgi apparatus:** And lysosomal lipid 1362
**Golgi hypertrophy:** Correlated with lysosomal lipid accumulation 1362

## H

**H9c2 cells:** Stable fatty acid translocase expression in 2039
**HDL:** *see* High density lipoprotein
**Hemin oxidation:** Of lipoproteins in serum 755
**Heparan sulfate proteoglycan:** Chylomicron remnant uptake regulated by 845
**Heparin:** Epitope of a monoclonal antibody that inhibits binding to LPL 633
**Heparin binding** 658
**Heparin-binding domain**
Of LPL 633, 1310
**Heparin-induced lipolysis:** And clearance of apoB-48-containing lipoproteins 322
**Hepatic cells**
In culture, selective uptake of HDL cholesteryl esters by, mediated by LPL 1335
Production of apoB-containing lipoproteins in 1448
**Hepatic lipase**
Activity, and androgens 1520
Activity in African-American men 228
Activity, influence of BMI and LIPC polymorphism on 1127
And CHD 1127
Facilitation of uptake of cholesteryl esters from remnant lipoproteins in apoE-deficient mice 2436
Low activity associated with polymorphisms 1900
Polymorphisms in 1900
**Hepatic lipase gene**
−514 polymorphism in 1520
5′ flanking polymorphism in 228
Polymorphism and BMI, joint influence on postheparin plasma hepatic lipase activity 1127
Polymorphisms common in African-Americans 1900
**Hepatic lipase-deficient mice**
Lipid and apolipoprotein concentrations in 1661
Metabolism of apoB-containing lipoproteins 1661
**Hepatic lipase-secreting cells:** Lipoprotein uptake by 1805
**Hepatic secretion**
Of triacylglycerol 1889
Of VLDL apoB in obese men 1752
Of VLDL fatty acids during stimulated lipogenesis 1280
**Hepatocellular transport:** Of phosphatidylcholine 1981
**Hepatocytes:** Regulation of chylomicron remnant uptake in 845
**Hepatoma cells:** Inhibition of N-linked glycosylation, retention of intracellular apo[a] 1629
**Hepatomas:** Expressing HL, accelerated uptake of lipoproteins by 1805
**HepG2 cells**
Effect of cytokines on regulation of apoB 103
Effect of glucose on apoB secretion in 2277
Intracellular synthesis and release of fatty acid ethyl esters 1568
Uptake of LPL-lipoproteins by 789
**12(S)-HETE:** *see* 12(S)-hydroxy-5,8,10,14-eicosatetraenoic acid
**Hexadecatetraenoic acid:** Formation from EPA by peroxisomal oxidation 978
**High density lipophorin:** Extracellular trapping and endocytic trafficking 1877
**High density lipoprotein**
Acute phase, preferential hydrolysis by phospholipase $A_2$ 2150
And centripetal cholesterol flux 2143
Apolipoproteins of, analysis by capillary zone and capillary gel electrophoresis 218
Cholesterol transport between cells and HDL subfractions in obese and lean subjects 544
Cholesteryl esters, increase in selective uptake, mediated by LPL, by hepatic cells in culture 1335
Conversion, effect of PLTP, in mice 1248
Decreased levels, by *trans* unsaturated fatty acids 1438
Effect of succinylation of PLTP activity 131
Elevation by PD 72953 17
Familial deficiency in Tangier disease 987
From rat hepatoma cells, association with human apoE 1372
$HDL_3$ binding to macrophages 293
Human, clearance in a rabbit model 1162
In a pedigree with familial LCAT deficiency 1870
Kinetics of transport in the mouse 1483
Large, plasma concentration, determined by production rate of apoA-I 2076
Levels in mice, effect of overexpression of PLTP on 1248
Maternal, clearance rates by fetal tissues 518
Metabolism 2021
Phospholipid, dietary modification, effect on cellular cholesterol efflux 2065
Postprandial, relation with lipid transfer proteins and LCAT activities 1493
Pre-α, phospholipid composition of 1601
Pre-β, removal of cellular cholesterol by 1918
Preβ-1, in normolipidemic individuals, influence of plasma lipoproteins, age, and gender 670
Relationship to an amino acid polymorphism in CETP 1071
Remodelling by PLTP, enhanced by triglyceride-enrichment 613
**High density lipoprotein cholesterol**
Effect of dietary fat and cholesterol on, in healthy subjects 1799
Effect of hepatic lipase activity on 228
Effect of Taq1B CETP gene polymorphism on, in NIDDM 59
Postprandial, decreased in normolipidemic smoking men 1493
**High density lipoprotein cholesteryl esters:** Selective uptake in a physiological steroidogenic cell model 1616
**High density lipoprotein receptor**
Expression during murine embryogenesis 495
Induction of, in a physiological steroidogenic cell model 1616
SR-B1 518
**HLP:** *see* Hyperlipoproteinemia
**13-HODE:** see 13-Hydroxyoctadecadienoic acid
**Homocystamide-low density lipoprotein:** Antibodies against 925
**Homocysteine:** Techniques for measurement of 925
**Homocysteinemia** 925
**Hormone-induced lipolysis:** Antilipolytic action of insulin on, in adipocytes 957
**Hormone-sensitive lipase:** Expression 1688
**Hormones:** Modulation of RXRα mRNA level by 744
**13-HPODE:** *see* 13-Hydroperoxyoctadecatetraenoic acid
**HSPG:** *see* Heparan sulfate proteoglycan
**HT-29 cells:** Enhancement of cell oxidant production in by DHA 1583
**Human milk:** Fatty acid composition 1389
**Human S mu binding protein-2:** Regulation of apoA-I gene expression by 255
**Huntington's disease** 1
**Hydroperoxide-reducing proteins:** Purification from human blood plasma 1133

**13-Hydroperoxyoctadecatetraenoic acid:** Regulation of endothelial nitric oxide synthase gene expression by 268
**Hydrophobic surface:** Of colipase, influence on lipase activity at an oil-water interface 1759
**24S-Hydroxycholesterol:** Circulating, cerebral origin of 1594
**27-Hydroxycholesterol:** Serum, in PBC patients 2477
**12(S)-Hydroxy-5,8,10,14-eicosatetraenoic acid:** Binding complex in carcinoma cells 237
**Hydroxy fatty acids:** As actin ligands 1476
**7α-Hydroxylase:** Regulation of in PBC 2477
**Hydroxylation:** Of oleic acid by P450 2E1 1210
**3-Hydroxy-3-methylglutaryl coenzyme A reductase**
Diminished activity in sitosterolemia 44
Diminished recovery of activity after atorvastatin treatment 75
Mutations in UT2 cells 2182
Not the primary site of the defect in phytosterolemia 1046
**3-Hydroxy-3-methylglutaryl coenzyme A synthase:**
Diminished activity in sitosterolemia 44
**13-Hydroxyoctadecadienoic acid:** Inhibition of secretion of triacylglycerol-rich lipoproteins by CaCo-2 cells 1254
**3β-Hydroxysterol $\Delta^7$-reductase**
Rat hepatic 2471
Subcellullar localization of 2471
**Hypercholesterolemia, familial:** ApoB-100 kinetics in 380
**Hypercholesterolemic rabbits:** Regulation of bile acid synthesis in 1608
**Hyperlipidemia**
During pregnancy and lactation, in the rat 2237
Effect of lovastatin treatment on LDL metabolism 913
Reversal of by soluble fiber 1455
**Hyperlipoproteinemia, type III dominant:** Not associated with apoE2 mutation in the receptor binding domain of apoE 658
**Hyperlipoproteinemia, type IV:** Oxidized VLDL remnants, and accumulation of macrophage cholesteryl esters 1008
**Hypertriglyceridemia**
ApoB metabolism in, effect of a fish oil diet 388
In apoA-I -deficient human apoB transgenic mice 313
Relationship of HDL and CHD to polymorphism in CETP 1071
**Hypoalphalipoproteinemia:** In LDL receptor-deficient rabbits, correction by LCAT 1558
**Hypocholesterolemic effect of atorvastatin** 75
**Hypolipidemic mechanism of soluble fiber** 1455

## I

**Immune functions:** In murine AIDS, effect of fish oil on 1677
**Immune response:** Of apoE-deficient mice to *Listeria monocytogenes* 1740
**Immune-mediated neurological disorders** 1
**Immunodepletion experiments**
Catalytic role of ACAT-1 in various human tissues 1722
Immunodepletion of ACAT activity in various human tissues 1722
**Immunodetection:** Of LPL 934
**Immunohistochemical localization:** Of HL in tumors derived from HTC 7288c cells 1805
**Immunoprecipitation**
Combined with Western blot analysis for detection of LPL 934
Of the 12(S)-HETE binding complex 237
**Insect lipoproteins:** Interaction with fat body cells 1877
**Insulin**
Antilipolytic action in adipocytes 957
Modulation of RXRα mRNA level by 744
**Intermediate density lipoprotein:** ApoB-100 kinetics, in FH 380
**Intestinal cells**
Cholesterol trafficking in 333
Role of caveolin in cholesterol trafficking 1938
**Intestinal cholesterol absorption** 1197
**Intestinal lipoprotein assembly** 173
**Intestinal lipoproteins, postprandial:** ApoB-48 and retinyl palmitate not equivalent markers of 1964
**Intestine:** Intracellular movement of triacylglycerol in 963
**Intracellular movement:** Of triacylglycerol in the intestine 963
**Intracellular retention of C-terminal truncated lipoprotein lipase** 821
**Intracellular trafficking:** Of LPL and triglyceride-rich lipoproteins by liver cells 789
**Ionophore A23187:** Stimulation of FRTL5 cells by 1295
**Isoeicosanoids** 1589
**Isoprenoid biosynthesis:** In peroxisomal-deficient CHO cell lines 1781

## J

**Jurkat cells:** Treated with cholesterylphosphoserine, inhibition of cholesterol transport 1844

## K

**Keratinocytes**
Cultured human, up-regulation of serine palmitoyltransferase in, by UVB irradiation 2031
Cultured human, parallel regulation of SREBP, and cholesterol and fatty acid synthesis 412
Human epidermal, differentiation of 1421
Mouse epidermal, phospholipase $A_2$ in 569
**7-Ketocholesterol:** Increased levels in triglyceride-rich lipoproteins, by dietary oxysterols 1995
**Kidney, chick:** Secretion of lipoproteins by 731
**Kinetics**
Analysis of phosphatidylcholine transfer in model membranes 1981
Model for LDL apoB metabolism 913
Of apoA-I in large HDL 2076
Of $\Delta^6$- and $\Delta^5$-desaturase activities in human fetal liver 1825
Of HDL transport in the mouse 1483
Of LDL-antioxidants 1430
Of small and large HDL 1162
Of VLDL in APOE*3-Leiden transgenic mice 1181
**Knockout mice**
ApoB 703
LDL receptor 1141

## L

**Lactation**
Effect on lipoprotein and cholesterol metabolism in the rat 2237
Metabolism of [U-$^{13}$C] during 1389
**LAL:** *see* Lysosomal acid lipase
**Large unilamellar vesicles:** Sterol transfer from, to $HDL_3$ and LDL 2459
**LAT:** *see* Lysophospholipid:acyl-CoA-O-acyltransferase
**LCAT:** *see* Lecithin:cholesterol acyltransferase
**Lecithin:cholesterol acyltransferase**
Correction of hypoalphalipoproteinemia in LDL receptor-deficient rabbits by 1558
Impaired function in atherosclerosis-susceptible pigeons 245

Inhibition by *trans* unsaturated fatty acids 1438
Recombinant human plasma, characterization of 807
Role of glutamic acid residues in cholesterol esterification and $PLA_2$ activities 51
**Lecithin:cholesterol acyltransferase deficiency:** Mutations in a compound heterozygote 1870
**Lecithin:cholesterol acyltransferase gene:** Human, transcriptional control of 969
**Leptin, plasma**
Effect of fat and energy intake on 1655
Relationship with *ob* mRNA levels and TNF mRNA in adipose tissue 724
**Leukocyte adhesion molecules** 1062
**Lewis lung carcinoma cells:** Identification of subunits of 12(S)-HETE binding complex in 237
**Ligand binding domain:** Of LDL receptor, calcium-induced conformational change in 402
**Light scattering:** Size determination of LDL by 2086
**Linoleic acid**
Deficiency, carbon recycling and lipogenesis during 2271
Metabolism during extreme dietary linoleate deficiency 2271
Mono *trans* isomer, desaturation and chain elongation 2228
Oxidized, regulation of endothelial nitric oxide synthase gene expression by 268
[U-$^{13}$C], metabolism in lactating women 1389
**Linolenic acid:** Mono *trans* isomer, desaturation and chain elongation 2228
**Lipase activity:** At an oil-water interface, influenced by the hydrophobic surface of colipase 1759
**LIPC:** *see* Hepatic lipase gene
**Lipid absorption** 963
**Lipid accumulation:** In the artery wall during atherogenesis 2339
**Lipid composition**
Membrane, regulation of translocational pausing of apoB by 1287
Of chylomicron remnants and VLDL, fasting and postprandial 1412
Of human HDL, determinant of metabolic clearance in a rabbit model 1162
**Lipid droplet accumulation:** In 3T3-L1 cells, associated with receptor regulatory protein 1152
**Lipid emulsions**
Clearance in rats and mice, effect of sterol structure on 302
Lipolysis of by LPL, effect of lipid composition 143
**Lipid hydrolysis:** By *Propionibacterium acnes* in vitro, monitoring by surface enhanced Raman spectroscopy 1896
**Lipid hydroperoxides**
Accumulation by macrophages 2394
Reduction by apoA-I 1133
Review article 1529
**Lipid level variability:** In MZ twins, influenced by LPL gene 437
**Lipid messengers:** And regulation of cell survival 1
**Lipid metabolism:** In perinatal lung fibroblasts 2483
**Lipid organization**
Of stratum corneum lipid models 1669
Of the plasma membrane, effect of cholesterylphosphoserine 1844
**Lipid oxidation:** In apoE gene knockout mice 354
**Lipid peroxidation** 1589
Core aldehydes 1503
Effects of oleic acid on 1239
**Lipid transfer** 2021
Activity in CaCo-2 cells, inhibition by BMS-200150 173
**Lipid transport:** Between high density lipophorin and fat body cells 1877
**Lipid-associating domains:** Common to apoB-100 of nine species of vertebrates 85
**Lipid-water interface:** Pancreatic lipase activity at 1759
**Lipids**
From teeth and gingival tissue 2360
Serum, effect of DHA supplementation on 286
**Lipofibroblasts** 2483
**Lipogenesis**
During extreme dietary linoleate deficiency 2271
Flux of VLDL fatty acids during 1280
**Lipogenic gene expression:** In 3T3-L1 adipocytes, inhibition by arachidonic acid through a prostanoid pathway 1327
**Lipolysis**
Basal and hormone-induced, action of insulin on, in adipocytes 957
Heparin-induced, and clearance of apoB-48-containing lipoproteins 322
LPL-mediated, role of apoE 1852
Of lipid emulsions by LPL, effect of lipid composition on 143
Stimulation of 1964
**Lipophilic antioxidants**
Determination of 2099
In liver tissue 2099
**Lipophorin, high density:**
Extracellular trapping and endocytic trafficking 1877
**Lipoprotein assembly:** In CaCo-2 cells, effect of inhibition of MTP 173
**Lipoprotein composition:** Before and after heparin administration 322
**γ-Lipoprotein E**
In vitro factors affecting concentration in human plasma 861
Subfractions in human plasma 861
**Lipoprotein electronegativity**
And PLTP activity 131
Determination by agarose gel electrophoresis 131
**Lipoprotein fractionation:** Chromatographic system for, using whole plasma 679
**Lipoprotein levels:** Effect of DHA supplementation on 286
**Lipoprotein lipase**
Action on lipid emulsions, effect of lipid composition on 143
Activity, modulation of clearance of apoB-48-containing lipoproteins by 322
C-terminal truncated, intracellular retention of 821
Carboxyl-terminal heparin-binding domain of 633
Deficiency, heterozygous, in mice, effect on diet-induced atherosclerosis 1141
Enhanced detection of, combining immunoprecipitation with Western blot analysis 934
Expression in cultured Schwann cells 2135
Gene promoter 2054
Identification of heparin-binding domain in 1310
Intracellular trafficking by liver cells 789
Mediation of selective uptake of HDL cholesteryl esters by, by hepatic cells in culture 1335
Promoter −93T/G transition, influence on fasting and postprandial response 1189
Release from muscle and adipose tissue 2387
Role of apoE in LPL-mediated lipolysis 1852
Specific monoclonal antibody 5D2, binding site 2350
Transport in plasma 2387
**Lipoprotein lipase gene:** $Ser^{447}$-Ter mutation, related to variability serum lipid and lipoprotein levels in MZ twins 437
**Lipoprotein profiles:** And MTP gene polymorphisms 2432
**Lipoprotein regulating properties:** Of carboxylalkylethers 17
**Lipoproteins**
Apolipoprotein B-containing, production limited by MTP-mediated lipid transfer 1448
In human apoB transgenic mice with apoA-I deficiency 313

Insect, interaction with fat body cells 1877
Metabolism in the rat, effect of pregnancy and lactation on 2237
Native, interaction with CD36 777
Oxidation, in apoE gene knockout mice 354
Plasma, influence on prebeta-1 HDL in normolipidemic plasma 670
Rapid isolation, by low temperature flotation 1696
Remnant, uptake of cholesteryl esters from, in apoE-deficient mice 2436
Removal from the maternal circulation 518
Responsiveness to dietary cholesterol 2415
Secretion by CaCo-2 cells, effect of 13-HODE on 1254
Secretion by chick kidney 731
Serum, oxidation by hemin 755
Substrates for human secretory group IIA phospholipase $A_2$ 2150
Transfer of phospholipids by, in Tangier disease 987
Triglyceride-rich, and LPL, binding and intracellular trafficking by HepG2 cells 789
Triglyceride-rich, incorporation of dietary oxysterols into 1995
Triglyceride-rich remnants, a $^{13}CO_2$ breath test to assess metabolism of, in mice 691
Uptake by transplantable hepatomas that express hepatic lipase 1805
**Liposomes:** Enriched in oleic acid, effect on lipid peroxidation 1239
**Lipoxygenase inhibition:** By 15-HETE 1476
**Lipoxygenases, cellular:** Monohydroxylated metabolites derived from, as ligands for cytosolic actin 1476
***Listeria monocytogenes*:** Impaired immune responses to, by apoE-deficient mice 1740
**LOCATE:** A program to compare apoB-100 sequences 85
**Long-chain base composition:** Of plasmalogalactosylceramides from equine brain 1039
**Long-chain fatty acids:** Membrane transport of 2309
**Long-chain sphingoid base** 2031
**Longevity:** Of mammals, related to mitochondrial membrane peroxidizability index 1989
**Lovastatin treatment:**
Three-fold effect on LDL metabolism 913
Ubiquinone supplementation during, effect on LDL oxidation ex vivo 1430
**Low density lipoprotein**
Capillary electrophoresis to monitor oxidative modification of 1305
Carotenoid and α-tocopherol content, impact on LDL oxidation by endothelial cells in culture 999
Decreased binding, uptake, and degradation in fibroblasts by cafestol 901
Effect of succinylation of PLTP activity 131
Homocysteine-thiolactone-modified, polyclonal antibody against 925
Interaction with human macrophages, effect of oxidation by hemin on 755
Lipid hydroperoxides derived from, accumulation by macrophages 2394
Maternal, clearance rates by fetal tissues 518
Metabolism, three-fold effect of lovastatin on 913
Oxidation by activated monocytes 2201
Oxidation by macrophages, effect of α-tocopherol 114
Oxidation, effect of probucol, in LDL receptor-deficient mice 1079
Oxidative clearance from plasma by liver 2111
Oxidized, lysosomal lipid accumulation from 1362
Oxidized, lysosomal sequestration of cholesterol from 1349
Oxidized, macrophage scavenger receptor-mediated uptake of 482
Particle fusion, detection by proton NMR spectroscopy 1705
Particle size, effect of dietary fat and cholesterol on 1799
Sialic acid determination in 2293
Size determination by gradient gel electrophoresis and light scattering 2086
Small dense, increased affinity for LDL receptor-independent cell sites 1263
Small, dense, in mice, critical role of HL in formation of 1661
**Low density lipoprotein cholesterol**
Effect of dietary fat and cholesterol on, in healthy subjects 1799
Effect of ubiquinone supplementation during lovastatin treatment 1430
Impact of antioxidant content on LDL oxidation 999
In the hamster, effects of dietary 8:0, 14:0, *cis*-18:1, and *trans*-18:1 fatty acids 1972
**Low density lipoprotein receptor**
Affinity of small dense LDL to cell sites independent of the LDL receptor 1263
Binding, activity of apoE2 and apoE-Leiden 1173
Calcium-induced conformational change in 402
Cytoskeletal-association of 1025
Deficiency in mice 1079
Deficiency in rabbits, correction by LCAT 1558
Down-regulation, effect of the coffee lipid, cafestol 901
Effect of lovastatin treatment on 913
Expression in mitogen-induced proliferating lymphocytes 2261
Gene, detection of point mutation in, by PASA 1101
Gene, duplications of 1466
Glycoprotein 330 518
Intracellular transport, catabolism, and surface binding 1466
Knockout mice 1141, 2339
Metabolism of LDL by, inhibition by VLDL during transient triglyceridemia 423
Promoter, activity of 1021
Regulation of gene expression 1647
mRNA, effect of cytokines on 103
mRNA, stabilization of 1025
Superfamily 2406
**LPL:** *see* Lipoprotein lipase
**Lung fibroblasts:** Lipid metabolism in 2483
**Lung phospholipids, rat:** Glyceryl ethers in 1907
**Lymphocytes**
Concanavalin A-activated, stimulation of PLD in, by DHA 873
Proliferating, mitogen-induced, detection of FH by determining LDL-R in 2261
**Lyso-platelet-activating factor:** Metabolic fate in FRTL5 cells 1295
**Lysophosphatidylcholine:** Accumulation by action of $PLA_2$ on lipoproteins 2150
**Lysophospholipid:acyl-CoA-O-acyltransferase:** Interaction with a photoaffinity oleoyl-CoA analogue 1118
**Lysosomal acid lipase**
Mutations in cholesteryl ester storage disease and Wolman disease 1382
Transcriptional regulation of 2125
**Lysosomal cholesterol sequestration:** In macrophages of different species 1349
**Lysosomal lipid**
Accumulation from oxidized LDL 1362
And the Golgi 1362

## M

**$\alpha_2$-Macroglobulin:** Association with apoE in human plasma 2373

**Macrophage receptor gene, human:** Naturally occurring isoform of 531
**Macrophage-like cell mutants:** Resistant to cytotoxic effect of oxidized LDL 482
**Macrophages**
Accumulation and metabolism of lipid hydroperoxides by 2394
Accumulation of cholesteryl esters in 1008
Binding of $HDL_3$ to, modulated by endogenous apoE expression 293
Interaction with LDL, effect of oxidation by hemin on 755
Lysosomal sequestration of cholesterol 1349
Mouse peritoneal, uptake of chylomicron remnants by 2339
Oxidation of LDL by, effect of α-tocopherol content 114
Oxidized LDL toxicity to 482
Tumor-infiltrating, glycosphingolipids in 2218
**Madin-Darby canine kidney cells**
Differential rate of cholesterol efflux from membranes of 1231
Regulation of caveolin and caveolae by cholesterol in 369
**McA RH7777 cells:** Lipoproteins secreted from 1372
**MDCK cells:** *see* Madin-Darby canine kidney cells
**Meiosis:** Sterols that affect 2005
**Membrane lipid composition**
In heads and tails of sperm 1404
Regulation of translocational pausing of apoB by 1287
**Membrane structure** 947
**Membrane transport:** Of long-chain fatty acids 2309
**Membranes**
Apical and basolateral of MDCK cells, cholesterol efflux from 1231
Arterial smooth muscle, physical effects of cholesterol on 947
**Menopause** 2111
**Metabolic clearance:** Of human HDL in a rabbit model 1162
**Micellar cholesterol:** Absorption and transport by CaCo-2 cells 1197
**Microsomal triglyceride transfer protein**
Gene, polymorphisms in the promoter, lack of association with lipoprotein profiles 2432
Limiting in production of apoB-containing lipoproteins 1448
Participation in lipoprotein assembly in CaCo-2 cells 173
Regulation by endotoxin and cytokines 1220
**Microvesicular steatosis:** Associated with altered expression of peroxisome proliferator-regulated proteins in the *fld* mutant mouse 2209
**Milk lipids:** Human, origin of linoleic, dihomo-gamma-linolenic, and arachidonic acids 1389
**Mitochondria proliferation:** Different metabolism of EPA and DHA during 583
**Mitochondrial membranes:** Peroxidizability index of, related to life-span of mammals 1989
**Mixed monolayer:** DPPC and cholesterol, interaction of pulmonary surfactant protein A with 555
**Model:** For LPL-mediated binding and uptake of triglyceride-rich lipoproteins by HepG2 cells 789
**Model biles:** Cholesterol crystallization from 1744
**Model membranes** 1981
**Molecular organization of stratum corneum lipids:** Role of ceramide 1 186
**Molecular species**
Ceramide, quantitative analysis of, by HPLC 2091
Phosphatidylcholine, quantitative analysis by HPLC and light scattering detection 344
**Monoacylglycerol:** Binding to human serum albumin 1033
**Monoclonal antibody:** Epitope that inhibits heparin binding of LPL 633
**Monoclonal antibody 5D2:** To LPL, binding site 2350
**Monocyte chemotaxis:** Of THP-1 cells to endothelial cells, effect of oleic acid-enriched liposomes on 1239
**Monocytes**
Activated, oxidation of LDL by 2201
Transcriptional regulation of LAL in 2125
**Monozygotic twins:** Variability in lipid and lipoprotein levels, related to the $Ser^{447}$-Ter mutation in the LPL gene 437
**Mouse peritoneal macrophages:** Uptake of chylomicron remnants by 2339
**MTP:** *see* Microsomal triglyceride transfer protein
**Murine AIDS:** Effects of fish oil on cytokines and immune functions 1677
**Murine brain tumors:** Glycosphingolipid composition in 2218
**Murine embryogenesis:** Expression of the HDL receptor, SR-B1, during 495
**Muscle, skeletal:** Role in regulation of plasma LPL concentrations 2387
**Mutant forms:** Of apoB 703
**Mutation**
$Arg^{136}$→Cys, apoE2, not associated with dominant type III hyperlipoproteinemia 658
G to A, of the sterol 27-hydroxylase gene in a patient with CTX 509
In a compound heterozygote with LCAT deficiency 1870
In exon 9 of the human CETP gene 442
In the promoter region of the LDL receptor 1021
Of the LDL receptor gene 1466
$Ser^{447}$-Ter, of the LPL gene 437
**Myelin biosynthesis:** In the peripheral nervous system 2135
**Myeloperoxidase:** Induced by estradiol 2111
**Myristic acid:** Dietary, effects on lipoproteins, early atherogenesis, and LDL oxidative properties in the hamster 1972
**MZ:** *see* Monozygotic twins

## N

**N-Acyl-sphinganine:** Molecular species, quantitative analysis of, by HPLC 2091
**N-Acyl-sphingosine:** Molecular species, quantitative analysis of, by HPLC 2091
**N-glycans:** Present on recombinant LCAT 807
**Nervonic acid:** β-oxidation of in peroxisomes 2161
**Neurodegenerative diseases:** Role of sphingolipid-mediated cell death in 1
**Neutral lipid storage disease:** A genetic disorder 31
**NF-Y:** *see* Nuclear factor Y
**NIDDM:** *see* Diabetes mellitus, non-insulin-dependent
**Nitric oxide synthase:** Endothelial, regulation of gene expression by oxidized linoleic acid 268
**Nuclear factor Y:** And SREBP, synergistic activation of transcription by 767
**Nuclear hormone receptors:** Transcriptional activation of cholesterol 7α-hydroxylase gene 2192
**Nuclear magnetic resonance spectroscopy, proton:** Detection of LDL fusion by 1705
**Nucleotide sequence**
Of cDNA encoding baboon apo[a] and plasminogen 1319
Of human GGPP synthase cDNA 1731
Of phosphatidylcholine transfer protein cDNA 1862
**Nutritional regulation:** Of G6PD gene expression, by polyunsaturated fatty acids 1951

## O

**Obesity**
Cholesterol transport in 544
In men, hepatic secretion of VLDL apoB 1752
*Ob* gene expression in 724
UCP-1 gene expression in 834

**_cis_-Octadecenoic acid:** Dietary, effects on lipoproteins, early atherogenesis, and LDL oxidative properties in the hamster 1972
**_trans_-Octadecenoic acid:** Dietary, effects on lipoproteins, early atherogenesis, and LDL oxidative properties in the hamster 1972
**Octanoic acid:** Dietary, effects on lipoproteins, early atherogenesis, and LDL oxidative properties in the hamster 1972
**Oleic acid:** Hydroxylation by cytochrome P450 2E1 in liver microsomes 1210
**Olive oil:** Dietary, effect of on cholesterol metabolism, differences compared to corn oil 892
**Omega–1 oxidation:** Of oleic acid, involvement of cytochrome P450 2E1 1210
**Oocyte development:** In the rainbow trout 1929
**Oogenesis:** Evolution, in the trout 1929
**Opsonized zymosan:** Activation of monocytes by 2201
**Oxidation**
β, of nervonic acid in peroxisomes 2161
Of LDL, and α-tocopherol content of macrophages 114
Of lipids and lipoproteins in apoE gene knockout mice 354
Of lipids in oleic acid-enriched liposomes 1239
Of triglyceride-rich lipoproteins, increased susceptibility by incorporated oxysterols 1995
Of type IV HLP VLDL remnants and foam cell formation 1008
Peroxisomal, conversion of EPA to chain-shortened n–3 fatty acid metabolites 978
Sequential, of phytanic and pristanic acids 66
ω−1, of oleic acid, involvement of cytochrome P450 2E1 1210
**Oxidation products:** Of α-tocopherol, determination of using high pressure liquid chromatography 2099
**Oxidative damage:** To unsaturated lipids 1989
**Oxidative modification:** Of LDL, monitoring by capillary electrophoresis 1305
**Oxidative stress signaling** 1529
**Oxidized low density lipoprotein**
Lysosomal sequestration of cholesterol from 1349
Macrophage scavenger receptor-mediated uptake of 482
**Oxidized phospholipids:** Metabolism in pigeons with impaired function of LCAT 245
**9-Oxononanoyl cholesterol**
Analysis by HPLC 1508
Synthesis by ozonization 1503
**Oxysterols, dietary:** Incorporation into triglyceride-rich lipoproteins 1995

## P

**P450 17α-hydroxylase gene:** Transcription, effect of an apoE synthetic peptide on 2406
**Pancreatic lipase:** Effect of bile salt-modified phospholipid emulsion on activity of 623
**Pancreatic lipase activity:** At an oil-water interface, influenced by the hydrophobic surface of colipase 1759
**Parkinson's disease** 1
**Particle size**
LDL, effect of dietary fat and cholesterol on, in healthy subjects 1799
Of human HDL, determinant of metabolic clearance in a rabbit model 1162
**PASA:** *see* Polymerase chain reaction of specific alleles
**PBC:** *see* Primary biliary cirrhosis
**PC:** *see* Phosphatidylcholine
**PD 72953:** Elevation of HDL by and activation of PPAR 17
**Pectin:** Hypolipidemic mechanism of 1455
**Periodontitis, adult:** Relationship to ceramides from *Porphyromonas gingivalis* 2360
**Peripheral nervous system:** Myelin biosynthesis in 2135
**Peroxidation, tocopherol-mediated:** In apoE gene knockout mice, role of in atherogenesis 354
**Peroxidative stress** 1529
**Peroxidizability index:** Mitochondrial membrane, related to life-span of mammals 1989
**Peroxisomal D-bifunctional protein deficiency** 2452
**Peroxisomal oxidation:** Conversion of EPA to chain-shortened n–3 fatty acid metabolites 978
**Peroxisomal proliferator-activated receptor γ2**
Cytosolic and nuclear distribution in 3T3-L1 preadipocytes 2329
Expression by a 3T3-L1 preadipocyte variant 2048
Role of in preadipocyte differentiation 2048
**Peroxisome proliferation:** Different metabolism of EPA and DHA during 583
**Peroxisome proliferator activated receptor:** Activation of by PD 72953 17
**Peroxisome proliferator-regulated proteins:** Altered expression in the fatty liver dystrophy mutant mouse 2209
**Peroxisomes**
Nervonic acid β-oxidation in 2161
Oxidation of phytanic and pristanic acids by 66
Requirement of, for cholesterol biosynthesis 1781
**Phorbol-12-myristate-13-acetate:** Stabilization of LDL receptor mRNA induced by 1025
**Phosphatidate levels:** In ConA-activated lymphocytes, lowering by DHA 873
**Phosphatidate phosphohydrolase:** Stimulation by DHA in ConA-activated lymphocytes 873
**Phosphatidylcholine**
Biliary, transport of 1981
Inhibition of micellar cholesterol absorption and transport in CaCo-2 cells 1197
PUFA at *sn*-2, effect on interaction with apoA-I 2423
**Phosphatidylcholine hydroperoxide:** Reduction by apoA-I 1133
**Phosphatidylcholine molecular species:** Quantitative analysis by HPLC and light scattering detection 344
**Phosphatidylcholine transfer activity:** Of SCP2, stimulated by bile salts 1981
**Phosphatidylcholine transfer protein, recombinant:** Baculovirus-mediated expression of 1862
**Phospholipase $A_2$**
Activity of LCAT, role of glutamic acid residues 154, 155, and 165 51
Effect on PC inhibition of cholesterol absorption and transport by CaCo-2 cells 1197
Human secretory group IIA, action on lipoproteins 2150
Several forms in mouse epidermal keratinocytes 569
**Phospholipase D:** Stimulation by DHA in ConA-activated lymphocytes 873
**Phospholipase D activity:** Calcitriol transmembrane signalling 197
**Phospholipid**
Composition, of pre-alpha HDL 1601
Conjugates of ara-C, cytostatic activity of 162
Glyceryl ethers in *Pneumocystis carinii* 1907
HDL, dietary modification, effect on cellular cholesterol efflux 2065
Hydroperoxides 1529
Liver microsomal, fatty acid composition between 20 and 26 weeks of gestation age 1825
Metabolism in neutral lipid storage disease 31
Molecular species in rat pineal gland, effect of n–3 fatty acid deficiency on 1397
Oxidized, metabolism in pigeons with impaired function of LCAT 245

Stabilized emulsion, modification by bile salts 623
Transfer to apoA-I in Tangier disease patients 987
**Phospholipid transfer protein** 1493
Activity influenced by electrostatic interactions with lipoproteins 131
Adenovirus-mediated overexpression, effect on HDL in mice 1248
Bind to apoA-I and apoA-II 152
Biosynthesis and secretion 2021
Remodelling of HDL by, enhancement by triglyceride-enrichment 613
**Phosphoserine:** Polar group asymmetry 1844
**Photoaffinity inhibitor:** Of MTP 1448
**Photoaffinity label:** Synthesis of 18-(4′azido-2′hydroxybenzoylamino)-oleic acid and its interaction with LAT 1118
**Physical properties of fatty acids** 467
**Phytanic acid:** Oxidation to 4,8-dimethylnonanoyl-CoA in peroxisomes 66
**Phytosterolemia:** HMG-CoA reductase not the site of the primary defect in 1046
**Phytosterols:** And cholesterol synthesis in humans 892
**Pigeons, White Carneau:** Atherosclerosis-susceptible, impaired function of LCAT 245
**Pineal gland, rat:** Biochemical function, effect of n–3 fatty acids on 1397
**$PLA_2$:** *see* Phospholipase $A_2$
**Plasma apolipoproteins:** Effect of PD 72953, PD 69405, and gemfibrozil on 17
**Plasma leptin**
Effect of fat and energy intake on 1655
Relationship with *ob* mRNA levels and TNF mRNA in adipose tissue 724
**Plasma lipids:** Effect of PD 72953, PD 69405, and gemfibrozil on 17
**Plasma lipoprotein responsiveness:** And cholesterol absorption 2415
**Plasma lipoproteins**
Fractionation by FPLC 679
Influence on preβ-1 HDL in normolipidemic plasma 670
**Plasma membrane**
CaCo-2 cells, transport of cholesterol from, to the ER 333
Cholesterol influx to the endoplasmic reticulum 1938
Lipids, steroid-induced disorder of 1844
Microsolubilization, involved in removal of cellular cholesterol by pre-β-HDL 1918
Sterol transfer from, to $HDL_3$ 2459
**Plasma storage:** Conditions affecting concentration of γ-LpE 861
**Plasmalocerebrosides:** Equine brain 1039
**Plasmalogalactosylceramides:** Equine brain, stereochemical structures of 1039
**Plasminogen:** cDNA sequences 1319
**Platelet-activating factor:** Metabolic fate in FRTL5 cells 1295
**Platelet-activating factor-acetylhydrolase activity:** In FRTL5 cells 1295
**Platinated bile acids, cytostatic:** Liver organotropism of 1792
**PLD:** *see* Phospholipase D
**PLTP:** *see* Phospholipid transfer protein
***Pneumocystis carinii*:** Characterization of glyceryl ethers and fatty alcohols in 1907
**Point mutation:** In the LDL receptor gene, detection of by PASA 1101
**Polyclonal antibody:** Against homocysteine thiolactone-modified LDL 925
**Polymerase chain reaction of specific alleles:** Detection of point mutation in LDL receptor gene by 1101
**Polymorphism**
CETP, relationship of HDL and CHD to 1071
5′ Flanking, in the hepatic lipase gene 228
In hepatic lipase 1900
In the hepatic lipase gene 1520
In the promoter of the MTP gene, lack of association with lipoprotein profiles 2432
**Polyunsaturated fatty acids**
Effect of on adipocyte differentiation 1327
Hyperleptinemic effect of 1655
Inhibition of G6PD gene expression by 1951
Interaction with apoA-I and phosphatidylcholine 2423
n–3, depletion of in the retina of the guinea pig, effect of diet on 1274
Synthesis in the blood-brain barrier 1816
*trans*, desaturation and chain elongation 2228
***Porphyromonas gingivalis*:** Novel ceramides from, relationship to adult periodontitis 2360
**Positional specificity:** Of LCAT, alteration by *trans* unsaturated fatty acids 1438
**Postprandial intestinal lipoproteins:** ApoB-48 and retinyl palmitate not equivalent markers of 1964
**Postprandial lipoprotein metabolism** 2493
**Postprandial plasma triglyceride:** And LPL promoter −93T/G transition 1189
**PPAR:** *see* Peroxisome proliferator activated receptor
**PPAR2:** *see* Peroxisomal proliferator activated receptor γ2
**Pre-mRNA splicing:** Of the sterol 27-hydroxylase gene in a patient with CTX 509
**Pre-β-high density lipoprotein:** Removal of cellular cholesterol by 1918
**Preadipocytes**
Differentiating, cytosolic and nuclear distribution of PPARγ2 2329
Differentiation, role of PPARγ2 2048
**Pre-β1 high density lipoprotein:** In plasma of normolipidemic individuals 670
**Pregnancy:** Effect on lipoprotein and cholesterol metabolism in the rat 2237
**Primary biliary cirrhosis:** Serum 27-hydroxycholesterol in 2477
**Pristanic acid:** Oxidation to 4,8-dimethylnonanoyl-CoA in peroxisomes 66
**Probucol**
Atherogenic effect in mice 1079
Effect on LDL atherosclerosis in LDL receptor-deficient mice 1079
Effect on LDL oxidation in LDL receptor-deficient mice 1079
**Proinflammatory activity:** Of oxidized liposomes enriched in oleic acid 1239
**Promoter −93T/G transition:** LPL, influence on fasting and postprandial response 1189
**8-iso-Prostaglandin $E_2$:** Formation in vivo 1589
**Prostaglandin $F_{2\alpha}$ receptor regulatory protein:** Association with lipid droplet accumulation in 3T3-L1 cells 1152
**Protein kinase A:** Up-regulation in X-ALD fibroblasts, effect on VLCFA 1091
**Protein kinase cascades:** Stress-activated and mitogen-activated 1
**Protein secretion** 2021
**Provitamin A activity** 2250
**Psyllium:** Hypolipidemic mechanism of 1455
**PUFA:** *see* Polyunsaturated fatty acids
**Pulmonary surfactant protein A:** Interaction with dipalmitoylphosphatidylcholine and cholesterol at the air/water surface 555

## R

**Rainbow trout:** Evolution of oogenesis 1929
**Raman spectroscopy, surfaced enhanced:** Monitoring of *P. acnes* lipid hydrolysis in vitro 1896

**Rat lung phospholipids:** Glyceryl ethers in 1907
**Reactive oxygen species:** Increase by DHA 1583
**Receptor**
For vitellogenin from the rainbow trout 1929
HDL, expression during murine embryogenesis 495
Scavenger 1008
VLDL, variant expressed by bovine aortic endothelial cells 2172
**Receptor binding domain:** Of apoE 658
**Receptor regulatory protein:** Associated with adipogenesis 1152
**Recombinant lecithin:cholesterol acyltransferase:** Characterization of 807
**Recombinant phosphatidylcholine transfer protein:** Baculovirus-mediated expression of 1862
**Regulation**
Of caveolin expression in MDCK cells 369
Of cell survival 1
Of centripetal cholesterol flux 2143
Of cholesterol synthesis in sitosterolemia 44
Of chylomicron remnant uptake in 845
Of exit of apo[a] from the endoplasmic reticulum 1629
Of G6PD expression by a nuclear posttranscriptional mechanism 1951
Of HDL transport in the mouse 1483
Of LDL receptor expression 1025
Of LDL receptor function by calcium 402
Of LDL receptor gene expression 1647
Of LPL 2054
Of MTP mRNA expression by endotoxin and cytokines 1220
Of muscle phospholipase activity by calcitriol 197
Of obesity 724
Of phospholipid metabolism 31
Of pineal function, effect of n–3 fatty acids 1397
Of plasma LPL concentrations 2387
Of rat hepatic 3β-hydroxysterol $\Delta^7$-reductase 2471
Of RXRα mRNA level by hormones and fatty acids 744
Of scavenger receptor activity in macrophages 531
Of SR-BI 1616
Of translocational pausing of apoB by membrane lipid composition 1287
Parallel, of SREBP and enzymes of cholesterol and fatty acid biosynthesis in keratinocytes and epidermis 412
Transcriptional, of the human LCAT gene 963
**Remnant binding:** To liver cells, dependent on LDL receptor and expression of HSPG core proteins 845
**Remnant lipoproteins:** Uptake of cholesteryl esters from, in apoE-deficient mice 2436
**Remnants**
Chylomicron, uptake by mouse peritoneal macrophages 2339
Triglyceride-rich, a $^{13}CO_2$ breath test to assess metabolism of, in mice 691
VLDL oxidized, and foam cell formation 1008
**Restriction map, partial:** Of the LDL receptor gene 1466
**Retina, guinea pig:** Effect of diet on depletion of n–3 fatty acids in 1274
**Retinal lipids** 1274
**Retinal pigment epithelium:** Substrate specificity of retinyl ester hydrolase in 604
**Retinaldehyde:** Keratin metabolism of 1421
**Retinoic acids:** Increased cellular concentration during differentiation of epidermal keratinocytes 1421
**Retinoid X receptor α** 2329
Expression by a 3T3-L1 preadipocyte variant 2048
Regulation of gene transcription of, by fatty acids and hormones in rat hepatic cells 744
**Retinyl ester hydrolase:** Substrate specificity in retinal pigment epithelium 604
**Retinyl palmitate**
Marker of postprandial intestinal lipoproteins 1964
Measurement of 1964
**Reverse cholesterol transport** 1483, 1918, 2065
**Review article**
Fatty acid transport 467
Genetically modified mice for the study of apoB 703
Lipid hydroperoxide generation, turnover, and effector action 1529
Membrane transport of long-chain fatty acids 2309
Role of sphingolipid-mediated cell death in neurodegenerative diseases 1
**mRNA**
For bovine VLDL receptor 2172
LDL receptor, stabilization of 1025
UP-1, expression in human adipose tissue 834
**ROS:** *see* Reactive oxygen species
**RXRα:** *see* Retinoid X receptor α

S

**Saccharides:** Of plasmalogalactosylceramides from equine brain 1039
**Scavenger receptor** 1008
CD 36, for native HDL, LDL, and VLDL 777
Induction of, in a physiological steroidogenic cell model 1616
Macrophage, recognition of oxidized LDL by 2201
**Schindler disease** 1768
**Schwann cells:** LPL expression in 2135
**SCP2:** *see* Sterol carrier protein 2
**Sebaceous gland secretions:** Models of, lipid hydrolysis by *P. acnes* in vitro 1896
**Selachyl alcohol:** In phospholipids of *P. carinii* and in rat lung lipids 1907
**Sequential peroxisomal and mitochondrial reactions:** Oxidation of phytanic and pristanic acids 66
**Serine palmitoyl transferase**
Regulation in keratinocytes and epidermis 412
Up-regulation in cultured human keratinocytes, by UVB irradiation 2031
**Serum 27-hydroxycholesterol:** In PBC patients 2477
**Serum lipids:** Effect of dietary fish oil, in APOE*3-Leiden mice 1181
**Serum lipoproteins:** Hemin oxidation of, on interaction with human macrophages 755
**Sialic acid:** In LDL, determination of 2293
**Simvastatin:** Effect of on plasma sterols in patients with phytosterolemia 1046
**Site-directed mutagenesis** 1173
Identification of heparin-binding domain of LPL by 1310
**Sitosterolemia**
Down-regulation of cholesterol synthesis in 44
Exclusion of genes involved in reduced cholesterol biosynthesis 1055
Genetics of 1055
HMG-CoA reductase not the site of the primary defect 1046
**Skin fibroblasts**
Cholesterol metabolism in, effect of cafestol 901
Degradation of blood group A glycolipid A-6-2 by 1768
SLOS, down-regulation of cholesterol biosynthesis by 7-dehydrocholesterol in 647
**Skin lipids:** Lipid organization of stratum corneum models 1669
**SLOS:** *see* Smith-Lemli-Opitz syndrome
**SMC:** *see* Smooth muscle cell
**Smith-Lemli-Opitz syndrome** 2459
Inhibition of 3β-hydroxysterol $\Delta^7$-reductase in 2471

Skin fibroblasts, down-regulation of cholesterol biosynthesis by 7-dehydrocholesterol 647
**Smooth muscle cell:** Membranes, cholesterol domains in during atherogenesis 947
**Soluble fiber:** And reversal of hyperlipidemia 1455
**Sp1/Sp3 binding site:** In the human LPL promoter 2054
**Special Report:** Cellular Cholesterol Ester Metabolism 2300
**Spectroscopy, photon correlation** 2086
**Spectroscopy, proteon nuclear magnetic resonance:** Detection of LDL fusion by 1705
**Sperm:** Heads and tails, different lipids in 1404
**Sphingolipid synthesis, epidermal:** Stimulation by UVB 2031
**Sphingomyelin**
Effect on lipoprotein lipase-mediated lipolysis in lipid emulsions 143
Influence of, on selectivity of sterol transfer 2459
**Splice donor site mutations:** In the HMG-CoA reductase gene in UT2 cells 2182
**Splice site mutation:** In a baboon apo[a] null allele 1319
**Splice variant:** Of the human macrophage scavenger receptor gene 531
**Squalene synthase:** Diminished activity in sitosterolemia 44
**SR-A gene:** Naturally occurring isoform of 531
**SR-BI receptor:** HDL, expression during murine embryogenesis 495
**SRE:** *see* Sterol regulatory element
**SREBP:** *see* Sterol regulatory element binding protein
**Stable isotopes** 1389
**Stanozolol:** Effects of on plasma HDL cholesterol and hepatic lipase activity 1520
**Stereochemical structures:** Of plasmalogalactosylceramides from equine brain 1039
**Steroidogenic cell model:** Simultaneous induction of SR-BI and selective uptake of HDL cholesteryl esters 1616
**Sterol 27-hydroxylase:** Stimulation by cholesterol 1608
**Sterol 27-hydroxylase gene:** Pre-mRNA splicing in a patient with CTX 509
**Sterol balance:** For measurement of human cholesterol biosynthesis 1111
**Sterol carrier protein 2:** Activation by bile salts 1981
**Sterol metabolism:** In mice lacking cholesterol 7α-hydroxylase 1833
**Sterol regulatory element:** Regulation of LDL receptor gene expression 1647
**Sterol regulatory element binding protein**
And enzymes of cholesterol and fatty acid synthesis, parallel regulation of in keratinocytes and epidermis 412
And NF-Y, synergistic activation of transcription by 767
Co-expression with transcription factor Sp1 2054
**Sterol structure:** Effect on clearance of lipid emulsions in rats and mice 302
**Sterol transfer:** From large unilamellar vesicles to lipoproteins 2459
**Sterols:** Synthetic, effect of on meiosis in mouse oocytes 2005
**Stratum corneum lipid models:** Study of lipid organization by electron diffraction 1669
**Stratum corneum lipids:** Molecular organization, role of ceramide 1 186
**Subcellular localization:** Of the LDL receptor mRNA 1025

## T

**3T3-L1 cells**
Differentiating, cytosolic and nuclear distribution of PPAR2 2329
Lipid droplet accumulation in, associated with synthesis of receptor regulatory protein 1152
**TAG:** *see* Triacylglycerol
**Tangier disease:** Disturbed phospholipid transfer in 987
**Teeth:** Lipids extracted from 2360
**Tetradecatrienoic acid:** Formation from EPA by peroxisomal oxidation 978
**3α,7α,12α,24-Tetrahydroxy-5β-cholestan-26-oic acid:** Diastereomers, analysis of using GC-MS 2452
**3-Thia fatty acids:** Increased mitochondrial and peroxisomal proliferation by 583
**Three dimensional structure:** Of human colipase 1759
**Tissue expression:** Of human GGPP synthase 1731
**α-Tocopherol**
Content of macrophages, effect of on oxidation of LDL 114
Of LDL, impact on LDL oxidation by cultured endothelial cells 999
Oxidation products, determination by high pressure liquid chromatography 2099
**Tocopherol-mediated oxidation:** In apoE gene knockout mice, role of in atherogenesis 354
**Transcription:** Synergistic activation by NF-Y and SREBP 767
**Transcription factors**
Sp1 and AP-2, mediation of regulation of the LAL gene by 2125
Sp1 and Sp3 963
**Transcriptional activation**
Of the cholesterol 7α-hydroxylase gene by nuclear hormone receptors 2192
Of the farnesyl diphosphate synthase gene 767
**Transcriptional control:** Of the human LCAT gene 969
**Transcriptional regulation:**
Of LAL in differentiating monocytes 2125
**Transepidermal water loss** 2031
**Transfection:** Of fatty acid translocase in a rat heart muscle cell line 2039
**Transgenic mice**
ApoE*3-Leiden, effect of fish oil on serum lipids and VLDL kinetics 1181
Expression of human apoA-II in 457
For study of apoB gene expression 703
Human apoB 1543
Human apoB, with apoA-I deficiency, hypertriglyceridemia in 313
**Transition metal ions:** Required for oxidation of LDL by activated monocytes 2201
**Translocation pausing:** Of apoB, regulation by membrane lipid composition 1287
**Transmembrane movement of fatty acids** 467
**Transmembrane transport:** Of long-chain fatty acids 2039
**Transport**
Of fatty acids 467
Of maternal LDL and HDL to the fetal membranes and placenta of the hamster 518
**Triacylglycerol**
Accumulation in pulmonary fibroblasts 2483
Clearance, in human adipose tissue, role of ASP 884
Enrichment of HDL with, effect of metabolic clearance 1162
Enrichment of HDL with, enhancement of remodelling by PLTP 613
Fatty acids, flux during lipogenesis 1280
In lipoproteins isolated by low temperature flotation procedures 1696
Intracellular movement in the intestine 963
Synthesis In HepG2 cells 2277
Synthesized by cultured hepatocytes from the cytosolic TAG hydrolysis products 1889
VLDL, production after alcohol ingestion 2319

**Triglyceride transfer protein:**
Microsomal, participation in lipoprotein assembly in CaCo-2 cells 173
**Triglyceride-rich lipoprotein remnants**: A $^{13}CO_2$ breath test to assess metabolism of, in mice 691
**Triglyceride-rich lipoproteins**
Incorporation of dietary oxysterols into 1995
Intracellular trafficking by liver cells 789
Source of γ - LpE in vitro 861
**Triglyceridemia, transient:** VLDL processing during 423
**Trout vitellogenin receptor** 1929
**Tumor necrosis factor α:** Expression in adipose tissue 724
**Turnover:** Of lipid hydroperoxide in biological systems 1529
**Type III hyperlipoproteinemia:** Not associated with apoE2 mutation in the receptor binding domain of apoE 658

U

**Ubiquinone:** Supplementation during lovastatin treatment, effect on LDL oxidation 1430
**UP-1:** *see* Uncoupling protein-1
**Ultraviolet B irradiation**
Stimulation of epidermal sphingolipid synthesis by 2031
Up-regulation of serine palmitoyltransferase by, in cultured human keratinocytes 2031
**Uncoupling protein-1:** Expression in obese human subjects 834
**Unsaturated fatty acids:** Inhibition of cytokine-induced endothelial activation 1062
**Ursodeoxycholic acid:** Conjugate with an antiinflammatory agent, 5-aminosalicylic acid 1641
**UT2 cells:** HMG-CoA reductase mutations in 2182

V

**Varanic acid:** *see* 3α,7α,12α,24-Tetrahydroxy-5β-cholestan-26-oic acid
**Vascular cell adhesion molecule-1:** Expression in human endothelial cells 1062
**Vascular wall:** LPL protein in, role in atherosclerosis progression 1141
**Very low density lipoprotein**
ApoB-100 kinetics, in FH 380
ApoB, hepatic secretion in obese men 1752
Fasting and postprandial, chemical composition 1412
Fatty acids, hepatic secretion during stimulated lipogenesis in men 1280
Kinetics, effect of dietary fish oil, in APOE*3-Leiden mice 1181
Processing during transient triglyceridemia 423
Remnants, oxidized, and foam cell formation 1008
Remnants, resistance to post-heparin lipolysis in apoE-deficient mice 1852
Triglyceride, production after alcohol ingestion 2319
**Very low density lipoprotein receptor**
On endothelial cells 2172
Knockout mice 2339
**Visceral obesity:** In men, involvement of apoB signal peptide and apoE genotype in hepatic secretion of VLDL apoB 1752
**Vitamin E:** Homologues, determination of, by HPLC 2099
**Vitellogenin receptor:** From the rainbow trout 1929
**VLCFA:** *see* Fatty acids, very long chain

W

**Western blot analysis:** Combined with immunoprecipitation for enhanced detection of LPL 934
**White Carneau pigeons:** Atherosclerosis-susceptible, impaired function of LCAT 245
**Wolman disease:** LAL mutants in 1382

X

**X-adrenoleukodystrophy:** Normalization of very long chain fatty acids by cAMP 1091
**X-ALD:** *see* X-adrenoleukodystrophy
**X-linked adrenoleukodystrophy:** Impaired β-oxidation of nervonic acid in 2161

Z

**Zellweger syndrome:** Impaired β-oxidation of nervonic acid in 2161

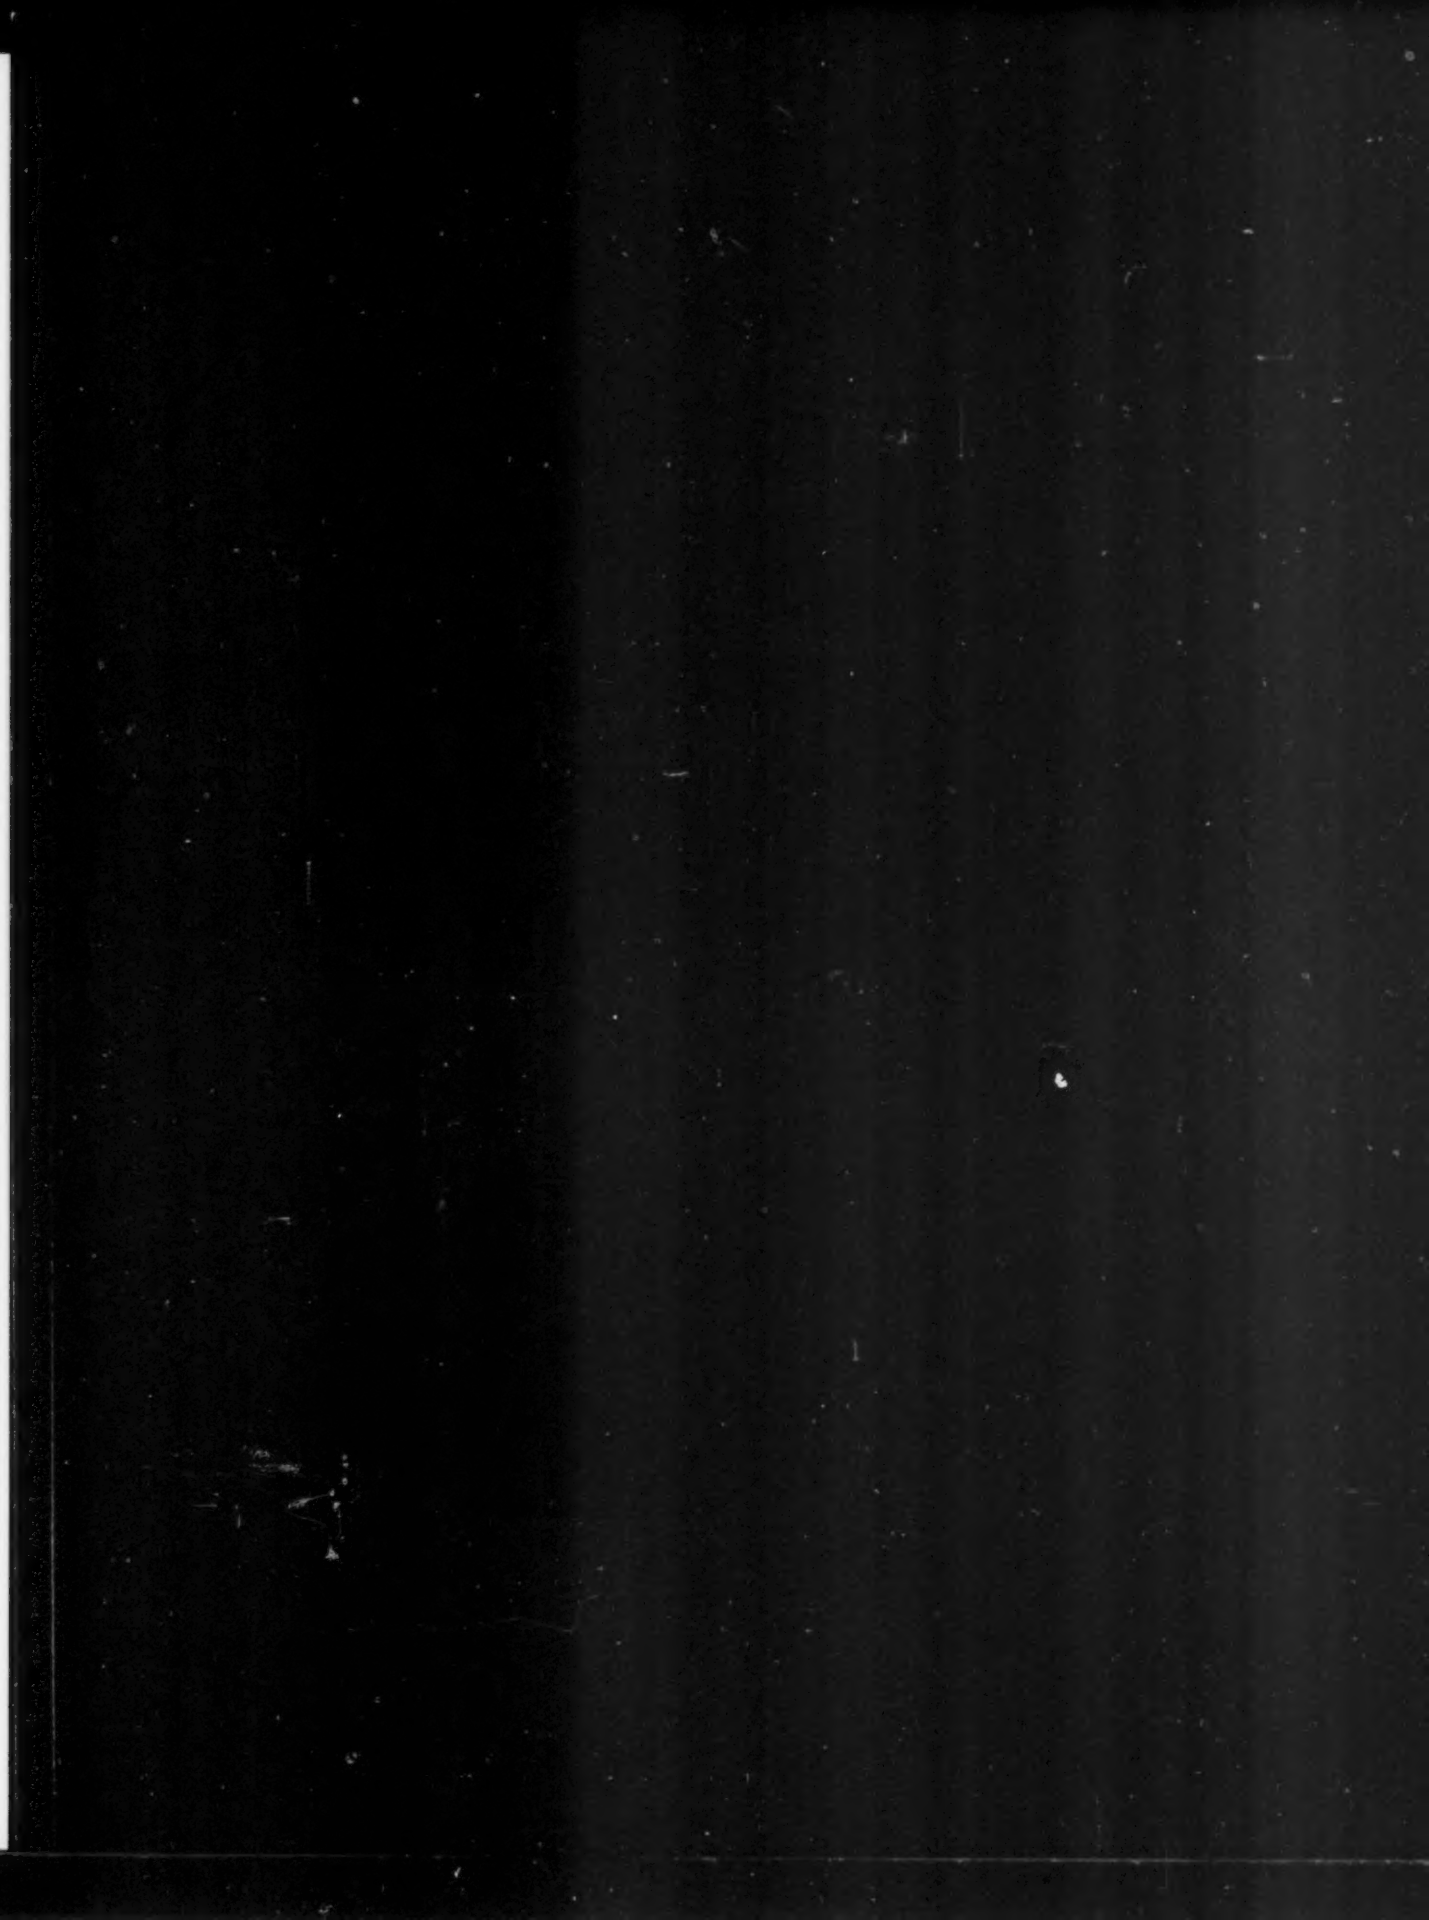
## ERRATA


In the article "Quantitative analysis of ceramide molecular species by high performance liquid chromatography" by Drs. Midori Yano, Etsu Kishida, Yuka Muneyuki, and Yasuo Masuzawa which was published in the October 1998 issue of the *Journal of Lipid Research* (1998. **39:** 2091–2098) incorrect wavelengths for fluorescence detection were recorded. On page 2092, right column, line 24, the correct excitation wavelength is 370 nm (not 365 nm); on the following line, the correct emission wavelength is 470 nm (not 412 nm). In the legend for Fig. 1 on page 2093, the correct wavelengths for excitation and emission are 370 nm and 470 nm, respectively.
